THADOMAL SHAHANI ENGINEERING COLLEGE

LETTER OF RECOMMENDATION

I am glad to write this letter of recommendation for Shrey Jain for his graduate application to your prestigious University. I have been closely associated with him for three years in my capacity as an Assistant Professor at ThadomalShahani Engineering College. I taught him the course of Object-Oriented Programming using the JAVA laboratory. In this duration, I have had multiple opportunities to evaluate him both in terms of his skillset, as well as his personality. I can confidently assert that he is a bright and dedicated student with a lot of potential to succeed.

Shrey came across as a bright and talented student. During my lectures, he demonstrated an excellent ability to grasp concepts such as Inheritance and Encapsulation. He often approached me to resolve his doubts and would discuss advanced Object Oriented Programming concepts used in the subject. In practical sessions, I saw his dedication to the subject. He seamlessly translated the theoretical knowledge into practical execution, which is exactly what we aim to achieve while conducting lectures. He exhibited technical dexterity as he used the skills of Java. To reinforce his academic progress, I would also like to mention that he secured grade 'O' in subject taught by me.

Shrey's dedication and enthusiasm towards understanding and applying ideas were reflected during his mini project on 'Airline Management System in Java.' The objective of the project was to make reservations easier and simple. Being proficient at Java and Object-Oriented Programming, he adroitly used it in the project. I was impressed with his active participation in designing the User Interface as well as coding, exhibiting his technical acumen and profound knowledge. Moreover, throughout his projects, Shrey has displayed commendable teamwork and developed a strong rapport with all students and teachers, demonstrating his interpersonal skills.

He was a member of Computer Society of India (CSI) committee demonstrating his phenomenal organizational skills during the various events. I am aware of his participation in Smart India Hackathon 2020 TSEC where he was among the top 10. His systematic approach to work helps him manage his time well and maintain a harmonious balance between his academic and extracurricular activities.

To conclude, I strongly believe that Shrey has the ability to excel in the course of his choice. His sincerity, compassion, creativity and eagerness to learn more make him an ideal candidate for your graduate program. He is both self-confident and independent, and so I have no hesitation in stating without reservation that he will succeed beyond expectations and be an invaluable asset to your University. Therefore, I recommend him wholeheartedly for this course.

Sincerely,

Mr. Aejazul Khan
